

DCI *EDGE*

DCI EDGE SERIES 5 OPERATORY PACKAGE

# DIFFERENT BY DESIGN

## THE DCI EDGE

For over 30 years, DCI has done things differently to make your life easier. Now it's time to bring our design expertise and focus on value to the forefront with DCI Edge operatory equipment.

We believe in innovation and lean manufacturing to deliver low cost and high value to you. We believe in fairness in price. We believe in quality, trust, wellness, and giving back to the communities we serve. These beliefs shape the DCI Edge.

**NEWBERG, OREGON**

## DCI facilities in Newberg, Oregon, USA

DCI is a family owned company for two generations which is based in Newberg, Oregon, the heart of dental equipment manufacturing in America. The family previously owned several other popular equipment brands, so we're no stranger to crafting high quality dental equipment.

## Reliable, Inside & Out

DCI is the largest manufacturer of dental parts in the world. We supply most equipment manufacturers in the market with delivery system parts – the parts that actually make your unit work, the “engine” of your dental system.

Most likely, you've been using DCI parts for years without even knowing it. From foot controls to control blocks, vacuum valves to quick disconnects, tubing to flow control valves, there's a good chance DCI is inside the units you've grown accustomed to over the years.

## DCI History Over 30 years of Dental Manufacturing Experience

**1983**

### Company Beginnings

DCI is founded by John & Janelle Spencer. Company's founding principle is making customers' lives easier.

**1991**

### New Delivery System

DCI designs its first world acclaimed dental system.

**1993**

### Global Growth

DCI becomes largest dental parts manufacturer in the world.

**1997-2005**

### Expansion & Innovation

DCI expands into the dental equipment market through the acquisition of Pelton & Crane and Marus. Companies are sold in 2005.

**2016**

### Looking Forward

DCI continues to innovate with the introduction of the new Series 5 Operator Package.

# SMART INVESTMENT

## Series 5 Dental Chair

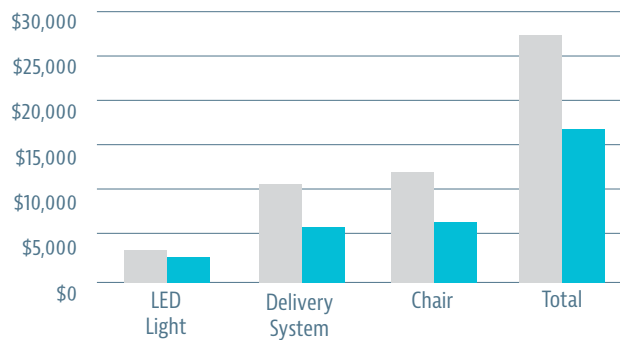

Why pay more for the same features? DCI Edge products offer features you want, the reliability you need, and the comfort patients deserve for significantly less money than other popular brands.

When you save with DCI Edge, not only can you enjoy new, world-class equipment, but you can invest in other upgrades to your practice or simply save for the future.

Compared to other manufacturers:

**Savings of \$10,000**

### DCI Edge vs. Competition

● Other Manufacturers ● DCI Series 5

Ergonomic Design/Thin Back

All Hydraulic Movements

Dual Articulating Headrest

Chair Swivel

## Series 5 Delivery System

Swing Mount or Post Mount Style

High Tech Integration

Dual Integrated Touchpads

Reliable Pneumatic Controls

## Series 5 LED Operatory Light

LED Technology

No-Cure Setting

3rd Axis Rotation

No-Touch Activation

# LIFT YOUR SPIRITS

## Make it a place of pride

The desire to care for patients is likely a big reason you went into dentistry. You spend most of your working day – and time with patients – in the operatory environment.

Help your patients feel invited and proud to tell their friends about your practice.

Modern, comfortable, and efficient design – for you and your patients. That's our edge and why we created the Series 5 Operatory Package.

# GET COMFORTABLE, STAY HEALTHY

Thin, Narrow Back

The DCI Edge operator chair provides comfort, style and efficiency. Our engineers have designed an ergonomic chair that combines a thin, narrow back with a low chair height. This allows you to be in the proper working position regardless of patient size.

Low Chair Height Positioning

Work smarter, more efficiently and more comfortably

Easily operate the chair with a footswitch and optional touchpads

Access controls and operate the brake release from the handles

Control the light with programmable no-touch sensors

Adjust the light with dual integrated touchpads

Swing Mount

Post Mount w/  
Cuspidor

DCI's Series 5 delivery system integrates technology to improve operator efficiency and eliminate workspace clutter. Enjoy the flexibility of integrating the devices you use today as well as what you might need in the future.

Dual integrated touchpads provide ergonomic access to easily control your equipment, eliminating unnecessary movement.

## Post Mount

## Internal Components

Reliable pneumatic components & ample room for high tech integration

## Integrated Touchpads

Access controls and operate the brake release from the handles

## Cuspidor

Quickly disassemble for easy cleaning, includes safety break-away

## Rear Assistant's Package

Mounts to rear of chair, includes chair touchpad

Wide Back Plush

Narrow Back Asepsis

Narrow Back w/ Slings

The Series 5 dental chair was designed to provide you and your team with comfortable, ergonomic access to the oral cavity.

Your patients can relax comfortably, enhancing their experience at your practice.

### Headrest Scoop

Headrest and back design support patients of all statures

### Thin/Narrow Back

Thin, narrow back design provides comfortable, ergonomic access to the oral cavity

### Foldout Armrests

Armrest rotation facilitates easy entry and exit of patients

### Heavy-duty Construction

High quality steel and aluminum castings stand the test of time

### Doctor's and Assistant's Stools

Track Mount Light

Post Mount Light

DCI's Series 5 Operator Light was engineered utilizing breakthrough LED technology to deliver next level lighting performance.

The new design blends innovation with beauty on every level, redefining what you should expect from an operator light.

### No-Cure Setting

Filters out UV light to prolong the working time of photo-initiated resins

### 3 Intensity Level Settings

Settings of 17.5K, 26K, 35K lux, while maintaining a 3" X 6" pattern

### 3rd Axis Rotation

Improve lighting in all quadrants of the oral cavity

### No-Touch Sensors

Control the light without contact using programmable no-touch sensors

### Ceiling Mount Light

Started over 30 years ago, DCI was founded on three guiding principles: making our customers' lives easier, providing dental care for those in need, and enhancing the lives of our employees. These principles give us our edge. It's an edge we want to pass along to you.

DCI is a family owned company for two generations which is based in Newberg, Oregon, the heart of dental equipment manufacturing in America. Over the years, John & Jason Spencer redefined the dental landscape by designing dental equipment that challenged the status quo. Today, the family brings their design expertise and commitment to value and service to the forefront with the DCI Edge Series 5 Operatory Package.

John, Jason and Amy Spencer
