DCI

UPFIT THE DENTAL OFFICE

THE DCI STORY

John and Janelle Spencer have personal experience in the dental industry. John was a top representative for a major dental supplier, and Janelle, a dental hygienist. They started DCI Inc. thirty-nine years ago to provide dentists with quality dental parts and accessories.

What began with a small home loan, an idea for an improved syringe, and a makeshift office in their living room, has evolved into DCI becoming the world's largest and most trusted dental parts manufacturer.

Today, DCI remains a family run business with strong growth, based on five simple words: **making our customer's life easier.**

FAMILY OPERATED SINCE 1983

DCI is a family-operated company spanning two generations, based in Newberg, Oregon, the heart of dental equipment manufacturing in America.

Automatic Control Unit, 3 HP, for A-dec® Cascade®

The Arm Mounted Automatic Control Unit features a new, simplified design with straightforward internals such as a single diaphragm control block without any moving pistons, springs, or O-rings and a simple combination valve for water flow control. This unit is a direct replacement for A-dec® Cascade® models.

- Quick install that takes less than an hour
- Replacement for A-dec® Cascade®
- 12 ft. color matched internal umbilical

- Color matched to original A-dec® Surf
- Individual Non-retracting Water Coolant
- Includes Precision Comfort® Syringe

✓ - Standard Features □ - Choose Your Option		Part Number	Retail Price	TOTAL
Step 1 Choose Your Delivery Unit				
Arm Mounted Automatic Control Unit for 3 HP, to Fit A-dec® Cascade®	□	4378	Surf	$1,242.00	

A-dec®, Cascade®, Decade® and A-dec 500® are registered trademarks of A-dec, Inc. DCI has no affiliation with A-dec and A-dec has not authorized DCI replacement parts to be used on or in connection with A-dec® products.

Direct Replacement

PN 4378, Arm-Mounted Automatic Control Unit is a direct replacement for all Cascade® models with a 2" head mount. The smooth asepsis design, sand color, and standard features make it perfect for replacing a standard Cascade® unit.
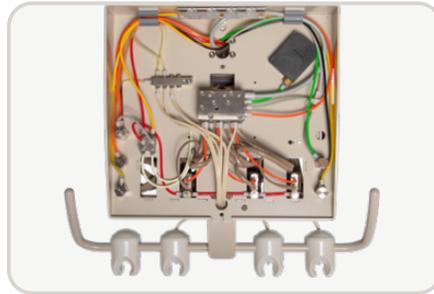

Simplified Design

The simplified design adds individual holders for easier upkeep and a more reliable robust mount.

Matching Features

This three HP automatic unit comes with an air/water syringe, individual water flow control, chip air adjustment, flush system, and brake activation on the left and right side of the head.

The Arm Mounted Automatic Control Unit

comes standard with a full length 12' umbilical

If the original umbilical is damaged, string the new one to the junction box or cut the umbilical short. Then, match the colors and align them together at the upper 2" control mount.
